Alexandria, VA 22313-1450

Dear Sir:

**RESPONSE TO OFFICE COMMUNICATION  
OF DECEMBER 30, 2010**

Applicants submit this response to the Office Communication mailed December 30, 2010.

Examiner requests that Applicants elect a specifically named or completely defined amine surfactant (Claims 3-5), a specifically named or completely defined phosphate ester compound (pages 13-14), a specifically named or completely defined hydrocarbon oil (Claim 20) and a specifically named or completely defined adjuvant (pages 17-18). Applicants hereby elect as a specifically named amine surfactant, with traverse, an alkyl amine alkoxylate as defined in Claim 2. Applicants hereby elect as a completely defined phosphate ester compound, with traverse, is the structure outlined in Paragraph [0041] of the application. Applicants hereby elect as a specifically named hydrocarbon oil, with traverse, EXXSOL® D-130, a dearomatized hydrocarbon fluid (see Paragraph [0009] and the attached product data sheet in Appendix I).
